Arlington, VA 22202

RECEIVED

NOV 0 5 2002

OCT 31 2002

OFFICE OF PETITIONS

Dear Director Rogan:

This is in regard to the application for patent term extension for U.S. Patent No. 5,532,221 filed by Lifecore Medical, Inc. under 35 U.S.C. § 156. The medical device claimed by the patent is Gynecare Intergel, which was assigned premarket approval application (PMA) No. P990015.

A review of the Food and Drug Administration's official records indicates that this product was subject to a regulatory review period before its commercial marketing or use, as required under 35 U.S.C. § 156(a)(4). Our records also indicate that it represents the first permitted commercial marketing or use of the product, as defined under 35 U.S.C. § 156(f)(1), and interpreted by the courts in *Glaxo Operations UK Ltd. v. Quigg*, 706 F. Supp. 1224 (E.D. Va. 1989), *aff'd*, 894 F. 2d 392 (Fed. Cir. 1990).

The PMA was approved on November 16, 2001, which makes the submission of the patent term extension application on January 15, 2002, timely within the meaning of 35 U.S.C. § 156(d)(1).

Should you conclude that the subject patent is eligible for patent term extension, please advise us accordingly. As required by 35 U.S.C. § 156(d)(2)(A) we will then determine the applicable regulatory review period, publish the determination in the *Federal Register*, and notify you of our determination.

Please let me know if we can be of further assistance.

Sincerely yours,

Jane A. Axelrad
Associate Director for Policy
Center for Drug Evaluation and Research
